4. What went well?:

- All members attend the meeting on time and no members are absent.
- Everyone finally completes their assigned task.

5. What to improve?:

- The task should be split into smaller parts for each member easily to handle.
- Task submission needs to be submitted on time or earlier.

6. Action needed for improvements:

- Assign the task that is suitable for each team member's ability to increase the working speed.
- Take an online course about Figma, ReactJS, ... on Slack "Training" channel or on Youtube before doing a task.
